Written by classmate Philip Paul

“Our dear classmate Michael Luther passed away on May 14, 1986. You may know that he had hemophilia, a rare genetic blood disorder with which he struggled with throughout his short life. I had the honor of delivering his eulogy at his funeral. Mike was my devoted friend, and we saw each other through some difficult times as well as some crazy fun times. As some of you may remember, Mike had a wonderful swimming pool where we spent many wonderful summer days splashing about.

He and I moved to New York City in September of 1979 and rented a small apartment on East 30<sup>th</sup> St. for about a year. Mike was so outgoing and friendly that he got a job within a couple of days of arriving. (It took me much longer!) He was always so fearless, despite his chronic health condition. Over the next 10 years, he thrived in the city, working primarily in the architectural/interior design industry. He was always the life of the party and seemed to know everyone. I miss him to this day. Mike, I hope you are resting in peace...and having some fun up there too.”
